

# Accelerating the Transition to Net Zero: The Role of Green and Transition Finance Taxonomies and Corresponding Low-carbon Solutions

Programme Code: HGES00P25051

22 May 2025 (Thursday)

12:00nn – 2:00pm

HKIB ECF SFC  
CPD CPD CPT

## Programme Outline

This session provides an in-depth exploration of the intersection between finance, sustainability, and climate action. Participants will gain an understanding of the latest developments around green and transition taxonomies – reflecting also on the development in Hong Kong – and how those taxonomies can help accelerate the journey towards Net Zero. In a second part, the session also explores the corresponding low-carbon solutions, identifying the most promising investment opportunities across the greentech ecosystem.

## Speaker Introduction

The speaker holds a PhD in Renewable Energy Management and master's degrees in international management and accounting and finance from the University of St. Gallen and the London School of Economics. He serves as a Senior Lecturer at the University of St.Gallen and HKUST and is a lecturer in other sustainability executive education programmes and MBA modules focusing on climate change related topics. Outside of academia, he consults companies on their net zero journey, previously in the role of Director of Climate & Sustainability at Deloitte Hong Kong.

## Target Audiences

1. Banking Practitioners
2. General banking practitioners to middle management from all banking divisions; and individuals who are interested in the sustainable investment and ESG development
3. HKIB Professional Qualification holders :
