

DeFi, Metaverse, Digital Assets and Web3: Opportunities and Challenges for the Financial Services Industry

In collaboration with:

Overview

The HKIB organises the seminar in collaboration with the Hong Kong Academy of Finance (AoF) / Hong Kong Institute for Monetary and Financial Research (HKIMR), which covers the opportunities and risks that frontier technologies will bring about the financial services industry. With the help of industry experts, the discussion will focus on the frontier technologies and explore the development of the broader digital asset and Web3 ecosystem in Hong Kong. Regulatory considerations will be also covered with reference to the local and international experiences.

Agenda

- Present research reports on “Decentralised Finance” and “The Metaverse” published by the HKIMR
- Introduce frontier technologies and their impact on the financial services industry
- Provide an overview of the opportunities and risks presented by frontier technologies
- Discuss the development of the digital asset and Web3 ecosystem in Hong Kong
- Share insights from local and international experiences on current regulations around frontier tech and digital assets

Who Should Attend?

- Bank managers and executives in charge IT, Operations, Security, Risk Management, Data
- Senior management
- Graduate trainees and management trainees
- Student Members
